

HONOR A4-2复印纸双回旋刀切纸机令纸生产线
Fully-Automatic A4-2 cut size sheeting and packaging production line

Nodular cast iron is firstly used by us in the field as the material of frame, which prevent the machine deforming, which is suitable for heavy duty job. 行业内率先采用球墨铸铁, 适应高强度工作, 保证产量。

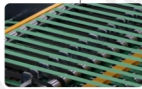

高精度分条系统
High precision slitting system.

Of Paper Cutting

全自动切纸包装机简介

HONOR-A4F 双回旋同步分切、伺服驱动全自动切纸包装生产线。它集电气自动化、PLC控制系统和机械自动化为一体的,由纸卷展开、切纸、计数、输送、令纸横向输出、令纸拉开、定位包装、包装纸定位喷胶、包装后的令纸整理排出的,连续生产的一整套全自动、高速、高精度生产设备。

Automatic copy paper cutting and packaging production line

HONOR-A4F double-cycle synchronous slitting and servo-driven automatic paper-cutting packaging production line. It integrates electrical automation, PLC control system and mechanical automation. It consists of roll unfolding, paper cutting, counting, conveying, paper horizontal output, paper opening, positioning packaging, packaging paper positioning spraying, packaging paper finishing and discharging, continuous production, a complete set of automatic, high-speed, high-precision production equipment.

★ 占地面积小, 只需6.5米X6.5米的厂房面积就可以安装一台。
Cover a small area, only 6.5 meters X6.5 meters of plant area can be installed.

★ 实现了世界上最先进的双回旋同步剪切, 生产速度快, 刀片使用寿命长, 切口干净利落, 尺寸精度达到国际标准 (国际标准尺寸精度 ±0.2mm)。
It realizes the world's most advanced double-cyclotron synchronous shearing with high production speed, long blade life, clean cut and dimension accuracy up to international standards (international standard dimension accuracy ±0.2mm)

★ 采用双回旋螺旋刀轴, 固定传动比获得同步剪切, 动力消耗低。只是传统切法的1/3-1/4。
With double cyclotron helical cutter shaft, synchronous shearing is achieved with fixed transmission ratio and low power consumption. Only 1/3-1/4 of the traditional cutting method.

★ 采用国际上最好的德国进口FAG轴承和瑞士进口Habasit输送带。确保设备经久耐用, 产品质量领先。
Adopt the best FAG bearing imported from Germany and Habasit conveyor belt imported from Switzerland. Ensure that the equipment is durable and the product quality is in the lead.

★ 同类产品设计时速可达50令/分, 根据客户不同预算和要求可加工定制。
Similar products can be designed at a speed of 50 reams/minute, and can be processed and customized according to different budgets and requirements of customers.

切纸型号 Cutting Type	HONOR -A4-2
纸卷宽度 Paper Width	845-846mm
生产运行速度 Production speed	Max 260米/分钟 Max 260m/min
切纸精度 Cutting accuracy	±0.2mm
上纸卷数 Paper Roll number	2卷 2rolls
分裁数 Cutting numbers	2裁 2Cuttings
产量 Output of the ream	Max 10-15令/每分钟 Max 10-15Reams/min
整机功率Power	23kw+18kw
机器尺寸(长*宽*高) Dimension(L x W x H)	7000mm*6600mm*1950mm
